

Antennas

UHF Pro Range

Triple array tough antennas consisting of three booms with their elements inserted and riveted. Made of aluminium alloy for long life, they combine all the properties of Panel and Yagi type antennas.

PRODUCT RANGE

Ref.	Description
1045	Pro 45
1046	Pro 75

TECHNICAL SPECIFICATIONS

Reference	1045	1046
Elements	45	75
Channel	21-69	21-69
Gain (dB)	16,5	19
F/B Ratio (dB)	28	32
Length (mm)	1020	1825

Nova Antenna

Yagi type electronic antenna for UHF and VHF made of printed and integrated elements, featuring split-band amplification. Separated PSU unit includes amplification ON/OFF switching and gain control.

TECHNICAL SPECIFICATIONS

References			1440
Gain	BI	(dB)	25
	BIII	(dB)	27
	UHF	(dB)	35
Powering	AC	(V)	220-240
	DC	(V)	12-24
Switching output voltage	(V)	10/8(ON/OFF)	
Maximum consumption	(mA)	120
